

Dog and Cat Boarding at the Wolf River Veterinary Clinic

Our Facilities:

In a separate area from the hospital we offer boarding for dogs with outdoor exercise runs.

We also have a cat boarding area with kitty condos and a full room for the cats to move around. This area is completely separated to help minimize the stress on our feline friends during boarding.

Why board at a veterinary clinic?

Many pets have medical conditions that require ongoing treatment or care. The kennel staff at the clinic closely monitors all pets and alerts the veterinarians of any concerns.

If a procedure such as dental care, vaccinations, or nail trimming is requested during a pet's stay this can easily be accommodated.

Boarding Fees:	Cat	\$ 10/day
	Dog	\$ 17/day
	Special Needs Pets.....	Additional \$ 5-15/day (Extra assistance, diabetic, medical injections, etc.)
	Sunday/Holiday Discharge	\$ 7/day

Requirements for Boarding:

All pets must be current on their vaccines including Rabies, DAPP, and Bordetella for dogs. If a pet is not current, the vaccine for kennel Bordetella must be administered seven (7) days prior to boarding. The clinic is not responsible if a pet contracts kennel cough. Cats need to be vaccinated for Rabies and FVRCP.

The clinic reserves the right to treat at the owner's expense any pet admitted who is carrying fleas or ticks. The clinic also will treat at the owner's expense any medical problems during the pet's stay.

I hereby authorize the performance of the following:

I agree to indemnify and hold Wolf River Veterinary Clinic (WRVH LLC) harmless and release all liability arising out of boarding my pet and any procedures referred to above. I agree that charges will be paid in full when my animal is picked up. Any Sunday discharge must be prepaid.

Pet's Name: _____ **Owner's Name:** _____

I have read and agree to above terms:
